Contributors

As the following lists of organizations and individuals who contributed to the Model Codes Project make clear, great efforts were made to obtain the input of a diverse community of experts with knowledge and experience relevant to the post-conflict criminal law reform process. In all, some three hundred people from more than one hundred organizations and over fifty countries contributed to the Model Codes Project. Some helped to create the broad framework for the project, others drafted specific provisions and commentaries, still others critiqued and refined those drafts; all of them gave generously of their time and considerable expertise.
